

Your Stream is Tougher with a Buffer

Retain the Roots

- \$ Trees prevent land and money from eroding away
- 🌻 Buffers are Beautiful!
- 🌍 Plant roots prevent excess dirt from polluting the streams

Restore with Natives

- \$ Native plants and trees along the stream take care of themselves, requiring less time and money
- 🌻 Native species produce beautiful blooms year round
- 🌍 Regional plants provide habitat and food sources for wildlife such as songbirds and butterflies

Repair the Bare

- \$ Topsoil is valuable. Protect it!
- 🌻 Plant grasses or shrubs to stabilize bare soil
- 🌍 Trees provide shade to keep streams cool and fish happy

\$ Saves Time and Money

🌻 Beautifies

🌍 Earth-friendly
