Knox County Election Commission to conduct Public Machine Test for the Federal and State General Election

Overview of the process can be viewed on YouTube:
<https://www.youtube.com/watch?v=YcsM0ihG3LU>

Knoxville - As part of its preparation for the November 5, 2024 election, the Knox County Election Commission will conduct a required voting machine test. The details are as follows:

WHAT: **PUBLIC VOTING MACHINE TEST**
DATE: **Wednesday, October 2, 2024**
TIME: **8:30 am**
LOCATION: **Downtown West Early Voting/Training center**
1645 Downtown West Boulevard, Knoxville, 37919

The purpose of the public machine test is to demonstrate to the public that the county has properly prepared equipment for the upcoming election, that said equipment is fully functional and that the election logic and accuracy are sound.

In the presence of member(s) of the public, a representative precinct will be chosen at random from the list of active precincts in the upcoming election. The election equipment for that precinct will be pulled from the pool of prepared machines and brought to the testing site. The equipment will be set up, following the same procedures applicable to Election Day polling locations, and a test election will be performed.

This test will be approximately one to two hours in duration. Candidates, the press, and the public are invited to attend.

For more information on the November 5, 2024 election, visit www.knoxvotes.org or call the Knox County Election Commission at 865-215-2480.
